Tom Crooker will be Moderator

Market Perspective. A mixed week. The DOW was down 0.2%, which the S&P was up 0.3%, and the NASDAQ up 1.1%. Relatively weak earnings continue to be reported, and the Fed looks more likely to raise interest rates in June, because of some strength in the economy. In normal times, that would be viewed as a good sign, but in a market driven by the Fed keeping interest rates low since the recession, good news is bad news.

Program. “The program will consist of a potpourri to timely topics chosen (by Tom Crooker) to capture the interest of members.”

Member Survey. We will continue to collect the surveys, in folders at the table when you come into TA-1.

Future Topics

Picking Investment Advisors. We last talked about this a year ago. Please let me know if you use an advisor (somebody you pay a fee to, to manage your portfolio or a part of it,) and are willing to share your experiences. Also if you use the services of “robo advisors.”

Mutual Funds. We will have another session on mutual fund selection, led by James Dann, in June. I am still looking for another panel member.
