

## INVESTMENT FORUM AGENDA FOR WEDNESDAY, MARCH 29, 2017 11:50AM,

### Lord of Life Lutheran Church, Fellowship Hall

At the end of the class, we will celebrate the DOW 21,000 (which happened several weeks ago) with our traditional sheet cake, courtesy of Ed Swoboda

**Market Perspective.** Markets were down for the week (most of the damage was on Tuesday) - with the DOW was down 1.5%; the S&P down 1.4%; and the NASDAQ down 1.2%. These were the biggest one-week drops since last September. Attention was on the crash and burn of the health care legislation on Friday. How will this impact the markets going forward? Will it move up the timeline for tax reform, which many believe will be good for equities? How will it impact healthcare stocks, with Obamacare likely to continue into the foreseeable future? Are there opportunities? Risks?

And what about bonds? Rates have eased slightly in the past few weeks, despite the signals from the Fed of further rate increases this year. Several bond gurus are moving into bonds, including long-term Treasuries. With bond yields moving up, and starting to surpass dividend yields, will income oriented investors start moving back into bonds?

**When to Sell.** Most individual investors find the decision to sell stocks, to be more difficult than buying stocks. Ludwig Benner and Ed Swoboda will lead a discussion on when to sell, both as a strategy and as a decision. If you have specific criteria or metrics that you use that result in a sell decision, please share it with us during the discussion.

### Future Topics

**Value Investing (continued.)** Our discussion on value investing last week needs further exploration. Tom Crooker and James Dann will provide further thoughts in the next few weeks (date to be determined) and we will look at more value stocks funds.

**Gold.** A member has suggested that we talk about gold investing - gold funds like GLD, rather than collecting bullion or jewelry. We have tried to discuss gold a few times over the years, without much success. If you own gold or gold funds or gold miners, and are willing to discuss gold as an investment, please let me know. If all you know about gold is what you learned from the James Bond flick, "Goldfinger," - well, that probably won't work.

**Municipal Bonds.** I am looking for a munis' investor, willing to talk about them - and the impact of tax reform (if it happens) on values.

**Forum Moderators Needed.** We need Forum Moderators for April 26 and May 3. Is there a topic or investment that you want to discuss? This is your chance. I will help with agenda preparation and distribution.
