Forum Moderator(s) needed March 11 and March 18

***Welcome to the Tom Crooker Investment Forum.*** I will welcome our new members, and ask that our new members introduce yourselves - your career field, how long you have been retired, and how long you have been an investor. We are happy that you joined us. (All introductions and participation is voluntary.)

***Market Perspective.*** Another down week fueled by fears of the Coronavirus, and global economic slowdowns, including Great Britain’s upcoming departure from the European Union. For the week, the DOW was down 2.5%; the S&P was down 2.1%; and the NASDAQ was down 1.8%. The DOW and S&P are now down year to date. How bad is this? Historically, fears of pandemics produce short-lived market downturns. Is this a buying opportunity, or the “pause that refreshes,” as markets take a breather, followed by further gains?

### ***Discussion Topics This Week.***

***Forum Discussions of Stocks.*** Several of our members have suggested more detailed discussions of individual stocks: half-hour “deep dives” into individual stocks. What do we think of this? We talk about stocks a lot, but in comparisons with other stocks, or as part of sector discussions, or particular newsworthy events. We do “shallow dives,” such as Bob Baker does with his Buy/Sell list discussions. Occasionally, we discuss individual stocks in depth.

From our last member survey, our portfolios are over 60% stocks, held as individual stocks, or through funds: managed mutual funds, exchange traded funds, or closed-end funds. Individual stocks may be selected by us, or by a financial manager, or by mutual fund managers. I will ask for a show of hands, how many of us select individual stocks, and whether we would welcome more “deep dives” into individual stocks.

Buy/Sell List. Bob Baker will look at it. Please consider providing oral comments on your trades. Comments by the buyers or sellers always provides insights and better understanding of the companies and funds traded.

Garrett Ruhl will talk about recent economic events and sectors.

### ***Upcoming Topics***

Financial Advisors (continued.) We have two volunteers (Jerry Anderson, Marvin Singer) to discuss their experience with financial advisors on a second panel on this topic. We will schedule the panel sometime during the Winter. We have room for additional panelists.

SECURE Act. This legislation (Setting every Community Up for Retirement Enhancement) was passed as part of the budget agreement. It makes of number of positive changes to retirement accounts, mostly benefiting workers, but a big negative for investors expecting to pass on IRAs to heirs - elimination of the “stretch” provisions, and requiring inherited IRAs to be withdrawn within ten years. This will change some estate planning strategies, which we will look at over time.

Garrett Cochran will lead discussions of Roth IRAs and the Virginia 529.
